

Winter Camp Spark - Igniting Knowledge!

December 21, 22, 23, 28, 29, 30, and 31, 2015 & January 4, 2016

MoLab, Inc.'s Camp Spark – Igniting Knowledge! is offered when students in Leon County are on school breaks for the winter, spring, and throughout the summer. Sessions are presented at a local school or organization. We are excited to host this camp session at St. Paul's United Methodist Church at 1700 North Meridian Road Tallahassee, FL 32303.

Winter Camp Spark will offer students 5 years old through the 8th grade the opportunity to participate in STEAM (Science, Technology, Engineering, Art, and Math) activities in a fun, interactive, and safe environment. Each daily session will present campers the opportunity to explore science through creative play, experimentation, and inquiry-based learning experiences. The sessions present age-appropriate curriculum and are designed to provide students with engaging educational activities that are both informative and entertaining.

For more information and to download Camp Guidelines, please visit www.tallymolab.org.

THEMES:

December 21: Candy Chemistry – It's a sticky situation when you use candy to explore chemistry. Learn how to sink a marshmallow, create edible sweet slime, experiment with heat and sugar, discover density with chewy treats, and test the acidity of sour candies.

December 22: Junior Veterinarians – Become a veterinarian for the day and learn about the health needs of a variety of special pets. Discover the nutritional needs of a guinea pig, proper housing for a scorpion, and explore the anatomy of pets from the ordinary to the exotic.

December 23: Explore the Force – You are the engineer as you get hands-on with physics to build a roller coaster, launch balloon rockets and flying hoopsters, create a centripetal twirler, and more!

December 28: Frozen and Dry Ice Experiments - Brrr, tis' the season to experiment with chilly, frosty, and freezing things! Explore phase changes, create frozen bubbles, make a quarter sing, and concoct your own frozen treat as you discover the science of cold!

December 29: Jedi Space Camp – In a galaxy far, not-so-far away, campers get to use their imagination to explore the science of Star Wars. Test carbonite-freezing technology, compare a Wookiee's world to forests on earth, design a space craft, and generate a Han Solo blaster sound effect!

December 30: Pokémon Science – Take a scientific look at anime powers in this special camper request session. Discover Ponyta's luminescent tail resulting from a chemical reaction, compare Magcargo's body temperature to the surface of the sun, and explore sound with Whismur.

December 31: Global Festivities – Celebrate the New Year with a special count down that takes campers on an exciting journey investigating science and culture around the world. It's a New Year's Eve party of discovery!

January 4: Spark Smorgasbord – Wrap up an exciting winter break with an assortment of fun science investigation. Activities include colorful creations, chemistry explosions, and building your own plate tectonic model to eat!

FEES:

Daily Camp fees are \$45 per day, which includes lunch and 2 snacks. Hours are from 9 a.m. to 4 p.m.; drop off starts at 8:45 a.m. and pick up is until 4:15 p.m. Extended Camp care is available starting at 7:45 a.m. for \$5/day and until 6 p.m. for \$5/day. A discounted rate is available for multiple days and additional siblings.

REGISTRATION:

Payment in full is due with registration.

To pay by check or money order, please send completed registration forms and payment by mail to 1700 N. Monroe Street Ste 11-223 Tallahassee, FL 32303.

Credit card payment must be made at www.tallymolab.org using MoLab's PayPal account. After completing your transaction, please write the confirmation se-

quence on the registration form and send by mail to the address above or email to aimee@tallymolab.org.

Please contact Aimee Hills for more information, questions, or to request a brochure at aimee@tallymolab.org or 850-591-6362.

Camp Spark makes learning fun and links Science, Technology, Engineering, Art, and Mathematics (STEAM) concepts to the real-world
